

### REMARKS

Applicants elect Species 1 as illustrated in Figure 1 (Claims 1-51). Claims 1-51 are directed towards a polarization dependent device suitable for effecting at least one polarization of a broadband portion of electromagnetic radiation incident upon the device. It should be noted that Species 2 and 3 are also directed to a polarization device. Thus, Applicants request that this claims 52-55 not be restricted, since there would be no additional burden for examining all the claims (i.e. additional searching). Thus, Applicants request the withdrawal of the restriction of claims 1-55.

In view of the restriction requirement, Applicants elects Species 1 as illustrated in Figure 1. Species 1 is directed to claims 1-51. In view of this election, Applicant respectfully requests consideration of this application and its early allowance. Should the Examiner feel that a telephone conference with Applicant's attorney would expedite the prosecution of this application, the Examiner is urged to contact him at the number indicated below.

Respectfully submitted,

  
Gerald H. Kiel
